

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### **Usage guidelines**

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### **About Google Book Search**

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

S T A M P S, &c.

The dated Stamp, or, if there are Two, that having the latest Hour, shews also the Time of the Day by which Letters are dispatched for Delivery. Persons, therefore, having occasion to complain of Delay in the Delivery of their Letters, are requested to favor the Comptroller or Deputy Comptroller with the Covers of them, as the dated Stamp will assist materially in discovering where the Neglect lies. It is further respectfully and earnestly requested of Persons receiving Letters, that they will not detain the Letter-Carriers at their Doors longer than can be possibly avoided, as all, in general, are alike anxious to receive their Letters, and every one is entitled to the same Consideration in a regular and speedy Delivery.

*(\*)* Places marked thus \* in the following List, as also other Out-parts not inserted, are attached to the Town Letter-Carriers' Walks, but are too distant from the Principal Offices to be served Six Times a Day. Letters therefore for the last Delivery of the Day in such Situations, must be put in at the Town Receiving Houses by 2 o'Clock, at either of the Principal Offices by 2 past 2, or at that they are ultimately dispatched from by 3. The Distribution also at such Places is something later, and the Dispatch from their Receiving Houses is earlier than in the interior Parts, for the same Reason.

\* The Word Country throughout these Regulations, means Parts within the Limits of the Two-penny Post only, and not beyond those Limits.

Letters put in before Eight in the Morning and Two in the Afternoon, are delivered by the Twopenny Post.

## POSTAGE, &amp;c.

The Postage of every Letter or Packet passing to and from Places within the Cities of London or Westminster, the Borough of Southwark, and not beyond the Limits of the Delivery of the General Post Letter Carriers

For every Letter or Packet put into the said Post, to be forwarded to the General Post-Office, and from thence to be conveyed by the General Post; or first passing by the General Post, and then passing by the Two-penny Post, over and above the General Postage.

For every Letter or Packet passing to or from any Part or Place within the District of the Two-penny Post, and not within the Delivery of the General Post Letter Carriers

For every printed Newspaper sent to any Place within the District of the Two-penny Post, beyond the Delivery of the General Post Letter Carriers, provided there shall not be inclosed therein any Paper or other Thing, nor contain any Writing other than the Superscription of the Name and Place of Abode of the Person to whom the same shall be sent

The Public have the Option of Paying, or not, upon the putting in of any Letters for Parts within His Majesty's Dominions; but with all Letters for Parts out of His Majesty's Dominions, the full Postage must be paid at putting in, without which they cannot be forwarded.

To prevent Mistakes, Persons paying the Postage of Letters on putting in, are advised to see them stamped "Paid" before they leave the Office.

No Letters or Packets exceeding the Weight of Four Ounces can be sent by this Post, excepting such as have first passed by, or shall be intended to pass by, the General or Foreign Mails.

*Letters containing Property, &c.*

This Office is not liable for the Loss of Property contained in Letters. It is, however, for the more perfect Security of such Property, particularly recommended to Persons taking Letters to any Office or Receiving House, containing Articles of Value, Note or Drafts for Money excepted, that they inform the Clerk or Office-Keeper of such Articles of Value being inclosed. It is also recommended to cut in half Bank or other Notes or Drafts payable to Bearer, and that the Receipt of the first Half be acknowledged before the other is sent. It may at the same Time be proper to state, that, for the greater Security of Letters in general, the Office-Keepers are strieli forbid delivering back, to any Persons whatever, any Letters that may be applied for after being put into their Offices, under whatever Circumstances the Recovery may be urged.

*Letters to be put into the Two-penny Post.*

Letters for Parts within the Limits of this Office, are frequently, by Mistake, put into the General Post, by which Means they are unavoidably delayed; it is therefore recommended, that they be put into the Two-penny Post-Offices, or Receiving Houses, in order that they may be regularly forwarded by their proper Conveyance.

## BYE POST.

A Bye Post is established on each Road within the Country-Delivery of this Office, by which Letters are transmitted from one Part to another of the same District, direct, and without coming to London.

*Penalty for illegally conveying and delivering Letters.*

The Forfeitures and Penalties incurred by the 9th of Queen Anne (one Half of which go to the Informer) for collecting, receiving, carrying, re-carrying, and delivering Letters; whether for Hire or not, contrary to the said Act, are Five Pounds for every Letter or Packet so collected, &c. and One Hundred Pounds for every Week such Practices are continued: with full Costs of Suit.

By Command of His Majesty's Postmaster General,

EDWARD JOHNSON, Comptroller.

April 6th, 1801.

## FIRE.

In this Institution the Premiums are RETURNED TO THE MEMBERS, in a rateable Proportion, at the end of Seven Years from the Commencement of their respective Insurances, after deducting the Sums expended in defraying the Losses and Expenses.

During the 17 Years which the Office has been established, these Returns have never fallen short of £ 50. per Cent; on the Premiums contributed.

Between 30 and 40,000 Persons have insured their Property upon this Plan, and nearly 6000 new Members are admitted every Year.—An Increase scarcely to be equalled by any other Establishment in the Kingdom.

The Insured may make their Payments either annually or semi-annually, and in either Case will receive their full Share of the Savings; but those who insure for a period of Seven Years, and pay the Premium for the whole Term at the Commencement, are charged for only Six Years.

No Demand is made for Policies, Indorsements, or Alterations.

The Rates of this Institution are similar to those of other Offices; viz. Common 2s. per Cent.—Hazardous 3s.—Doubly Hazardous 5s. but from the returns above mentioned are, in Effect, only as follows:—Common 2s. per cent.—Hazardous 4s. 6d.—Doubly Hazardous 2s. 6d. per Cent.

LIFE.

# LIFE.

**T**HE rates of this Office are nearly 10 per Cent. lower than those of others, AND THE SAVINGS ARE DIVIDED AMONGST THE PARTIES INSURING FOR THE WHOLE DURATION OF LIFE, by successive Additions to the Sums insured; so that the Representatives of a Party who has effected a Policy for £500, may ultimately become entitled to Seven or Eight Hundred; without his having ever contributed a greater amount of Premium than what he paid at the Commencement of his Contract for the Sum originally insured.

No Charge is made for Entrance Money upon Insurances of any Description.

No Fee is taken either for Policies, or upon any other Pretence whatever.

No Fine is imposed for neglect of paying the annual Premium in due Time (except the mere Interest lost by the delay,) if the Person on whose Life the Insurance was made continues in good Health.

So universal is the preference given to this Institution, in consequence of the equitable and liberal Principle upon which it is founded, that it already ranks among the first Establishments in the Kingdom.

If an Insurer should wish to discontinue his annual Payment, the Directors will purchase his Interest in the Policy at a fair Price on Behalf of the other Members.

Parties insuring their Lives, are not under the Necessity of naming the Persons for whose Benefit they make the Insurance; but may dispose of the Sum to which they are entitled on their Policy, by Will; as their own personal Estate.

The following Tables exhibit the yearly Premium which a Person must pay during the whole of his Life, to insure £100 to his Family or Nominee, independent of the Additions which may be made to that Sum out of the Savings of the Office.
