

**The effects of the Post Office Strike on the First
Day Covers of 15th February 1971**

INTRODUCTION

THE FOLLOWING COVERS (SHOWN BELOW IN RED) WITH F.D.I. POSTMARKS, WITH AND WITHOUT "POSTING DELAYED ..." CACHETS ARE IN THE COLLECTION. Items shown in BLACK are recorded in "20 years of First day Postmarks" (Peachey, 1983) but not in collection. Gaps against town names indicate unknown cachet type(s).

The illustrations of the cachets are (with one or two exceptions) are reproductions of scans of items in the collection. In some cases, the colours have not reproduced exactly due, for example, to the colour of the envelopes.

Key to cachets :-

First digit represents cachet colour i.e. R = Red, B = Black, V = Violet, M = Mauve etc.

Second digit represents number of lines in cachet.

Square brackets around description represent a boxed cachet.

Inverted commas around description represent cachet with inverted commas at beginning and end.

"JB" represents a cachet made up with John Bull letters (or similar). Letter spacing in "John Bull" cachets can and does vary from strike to strike of the same cachet eg – see Blackburn and Accrington below.

British Postmark Society Office reference numbers and cachet reference numbers are shown in the grey shaded boxes. Cachet details in turquoise boxes are not recorded by BPS (or are not as recorded) in "20 years of first day postmarks" (pub.1983). Cachet types previously unrecorded by BPS but found by RWB have been allocated cachet numbers commencing 101.

BPS FDI postmark E.R.Ds. shown with yellow background have been recorded by BPS as only used after 15FEB71, but have been found used on 15FEB71 by RB. It has to be assumed, therefore, that FDCs recorded in "20 years of first day postmarks" carry 15FEB71 FDI cancellations made with the previously-issued handstamp and are listed as such here.

Covers exhibiting datestamps not recorded by BPS in "20 years of first day postmarks" are shown in this list with entries in the "ERD" column dated 15FEB71 and with the column itself having a pale green background.

BPS FDI postmark types listed are as per the illustrations below and all are 1-inch (25.4-mm) in diameter (except the type IX which is 27mm diameter) –

Postmark type VI

Postmark type VIA

Postmark type VIII

Postmark type IX

Postmark type PB19

Postmark type IX was used on some covers postmarked London E.C., and shows no comma after "LONDON". It was a 27mm diameter fixed-date handstamp. In appearance it was the same as the type VI handstamps which were 1-inch (25.4mm) in diameter and had moveable dates. A 27mm diameter type IX handstamp is also recorded on some covers postmarked Windsor Berks.

☼ - covers marked thus in the following list are filed with the display pages.

The amendments shown in the text have come to my notice since the publication of "20 years of first day postmarks" (B Pask & C Peachey, 1983, pub by BPS) which incorporated my article published in the "Postal History Annual, 1981 (pub. J.A. Mackay).

Amendments

1	2013-01-19 - call careaghire postmarks not recorded by BPS added	3	2013-09-02 - Type IX handstamp used at Windsor found (Eps) and added to collection

BATH, SOMERSET	VI	24APR67		B/3JB		Office no.92	Cachet no.19
<p>BATH: BPS '20 years of First Day Postmarks' shows cachet to be the same as that of Hounslow BUT in Bath cachet, (still denominated type "19", "B" of "BY" is almost directly under "P" of "POSTING" but slightly to the right of it whereas, in the Hounslow cachet, the "B" is under but to the left of "P". Also, in the Bath cachet, the "D" of "DELAYED" is over the "E" of "OFFICE" while in the Hounslow cachet, the "D" of "DELAYED" is over the "C" of "OFFICE". This Hounslow cachet is numbered 59 by BPS. The cachet numbered 19 but used at Hounslow has not been seen by RWB.</p>

BELFAST	VI	24APR67	None	W/3JB		Office no.5	Cachet no.21
<p>The cachets used at Belfast, Londonderry and Lowestoft are described by BPS as the same, and numbered cachet 21. Those used at Belfast and Londonderry are the only two identical "John Bull" cachets seen by me, suggesting that all covers serviced with Belfast and Londonderry postmarks were serviced by the same stamp. That used at Lowestoft and seen by me is similar but not identical, as can be seen from the scan of cachet 102 in the main listing, for the Belfast and Londonderry cachets show "1971" while that from Lowestoft in my collection shows "1971". Accordingly, that for Belfast and that for Londonderry are allocated number 21 while that identified by me as used at Lowestoft is now given 102. The number 21 cachet used at Lowestoft has not been seen by me.</p>

	ditto	ditto		V/3JB				Cachet no.23A

BLACKBURN / ACCRINGTON :- ^{1A} - in 4th line, second "1" of "1971" is under "T" of "STRIKE", ^{1B} - second "1" of "1971" is under "S" of "STRIKE", ^{1C} - "1971" is under "RIK" (ie further to right), ^{1D} - similar to ^{1B} but "1971" at angle below 3rd line of cachet. The position of "1971" suggests that two cachets were used - one for the first three lines and the second for "1971" and applied separately to the first as the first three lines are identical on all covers seen. The three-line cachet 23A is cachet 23 without the bottom line (ie 1971 is missing).

HOUNSLOW : BPS "20 years of First Day Postmarks" shows cachet 19 to be the same as that of Bath BUT in Hounslow cachet, denominated type '59', the 'B' of 'BY' is under 'P' of 'POSTING' but slightly to the left of it whereas, in the Bath cachet, the 'B' is under but to the right of 'P'. Also, in the Bath cachet, the 'D' of 'DELAYED' is over the 'E' of 'OFFICE' while in the Hounslow cachet, the second 'D' of 'DELAYED' is over the 'C' of 'OFFICE'. Cachet 59 is also known with the 'E' of 'OFFICE' not struck or missing - designated Cachet 59A.
BPS "20 years of First Day Postmarks" shows type VI postmark with comma first recorded in use on 02APR69. There is no record in BPS "20 years of First Day Postmarks" of a type VI postmark without comma ever being used.

Cachet no.19 (used in violet at Hounslow)

The cachet identical to that used at Bath (ie, no.19, but used at Hounslow) has not been seen by RWB who believes it does not exist.

RUGBY, WARWICKSHIRE - In the three line cachets, the first two lines appear identical, and identical with the first line and part of the second line of the two-line cachet. The spacing between the letters of the third line of the three line cachets and the latter part of the second line of the two-line cachet are also identical suggesting that two separate stamps were used together to produce the cachets as seen on the envelopes especially as the position of the third line varies from cover to cover - 7 are in the collection and are all differently spaced.

Windsor :⁸ - type style as per Edinburgh. ⁹ : serifed lettering with '9' having rounded base.

Handstamp type IX cancellation was only discovered by RWB on 02SEP2013. Records from other issues (Windsor, 11AUG71 and London EC, 28JUL71) indicate that covers with type IX cancellation had been sent to the Edinburgh Philatelic Bureau for servicing. It seems logical, therefore, to assume that covers with the Windsor type IX cancellation of 15FEB71 were similarly treated and, as the only example found thus far carries cachet no.5, it is conceivable that Windsor type VI postmarked covers with cachet no.5 were also handled at the Bureau - most reports of type 5 cachets show a Scottish use, Liverpool appearing to be the only exception.

Roger,

Next instalment up to Howsham attached. I have included both of the Forest Row items (both CDS, sorry about my FDI error). If you would like one, let me know and I will post to you. Also Burnham cover is a single circle CDS, not FDI!

Final lot to follow in a few minutes.

Regards,

John G

Dear John,

I hope that you had a good Christmas and wish you all the best for 2012.

I had hoped to get this to you before Christmas but!

Three further e-mails will be winging their way towards you very shortly - I will explain the reasons and it is all due to those 15/2/71 FDI covers : I got a bit fed up trying to cross-reference the cachet pictures with the places from which they originate so have combined the two and thought that you might like a copy of the result but unfortunately, the entire thing was a HUGE file so I have split it into three and will send you each part separately. This list is as up-to-date as it can be at this precise moment!

Very many thanks for your last e-mail showing your cachets and the list of your non-cacheted covers and, yes, there are some discoveries in there for me which, if I may, I would like to incorporate into my records.

Accordingly, I am going to ask you if you could kindly send me some scans of the items -

firstly your "Colchester" FDI cover as I have never seen this cachet before (your number 3) - I do have a single line cachet from Colchester but it is different to yours! In addition, there are two types of FDI handstamp used at Colchester and I would love to know which is on your cover.
secondly, your "Swansea" with the manuscript cachet - again, something I never knew existed! (your cachet no.36)

I know that I am asking a lot but would greatly appreciate scans of some of your non-cacheted covers - preferably the entire cover, but if that is not possible, then certainly the postmarks -

a) Forest Row Sussex, b) Gillingham Dorset, c) Harleston Norfolk, d) Hillside Montrose Angus, e) Howsham Lincs, f) your London ... CDS cover - I might be able to fill in the dots!, g) Lostwithiel Cornwall, h) Reading Berks (with CDS pmk), i) Stoke Slough Bucks (probably ex Stoke Poges?) and j) BFPO 720.
All the above are first reports!

I would also appreciate a scan of your non-cacheted "Norwich Norfolk" as here again there are two types of FDI pmk reported.

Finally, you have got me really confused with FDI postmarks from "Burnham on Crouch Essex" and "Forest Row Sussex" and I would love to see these!

Early on you mentioned swapping and I do have a very few items which are not on your list - viz -

a) Bradford Yorkshire FDI without cachet, b) Great Yarmouth Norfolk FDI with cachet, c) London N1 FDI with cachet, d) Southend on Sea Essex FDI with cachet and e) Datchet Slough 1 Bucks CDS (no cachet). The Bradford cover is a bit tatty but the others are not bad. If you send me your address, I will pop them into the post for you. Then, at sometime in the future, I have no doubt that you will be able to find me a cover or two!!

The next 3 e-mails will simply each have a part of my illustrated FDI listing attached.

Best wishes,

Roger.

15th February 1971 LOW VALUE DECIMAL FIRST DAY COVERS

pre-amble and illustrations of cachets

In the United Kingdom, a strike for higher pay, called by the Union of Post Office Workers, affected postal services from January 20th to March 7th 1971. Most Crown Post Offices were closed, but many of the smaller and sub-offices remained open. Mail services were suspended nationally, except for isolated local deliveries, but were restored, on a phased basis, and were fully operational by March 11th 1971.

The immense, challenging and complex task of converting the postal business to decimal currency was successfully accomplished, even though the Post Office strike was in effect on February 15th, when decimal currency officially came into use with the issue of the twelve low-value definitive stamps.

Not wishing to disappoint collectors (and not wishing to lose out on the revenue generated from the sale of "First Day of Issue 15th February 1971" covers, philatelic posting boxes were open at all 170 Offices on 12th and 13th March and covers posted in these boxes received back-dated cancellations. The most surprising development was an instruction that such covers were to be cacheted with a rubber stamp reading "posting delayed by the Post Office Strike 1971" (or similar). Such rubber stamps, being locally produced, had considerable variation in appearance from professionally made stamps with up to 5 lines of type to stamps made using "John Bull" or similar type. Illustrations of the cachets are to be seen below -

The cachets used at Bath and Hounslow are described by BPS as the same, and numbered cachet 19. The number 19 cachet used at Hounslow has not been seen by me. Cachet no.59 was also used at Hounslow – see later in this list.

The cachet identical to that used at Belfast
and Londonderry but used at Lowestoft
has not been seen by RWB.

Used at :
Lowestoft (V)

The cachets used at Belfast, Londonderry and Lowestoft are described by BPS as the same, and numbered cachet 21. Those used at Belfast and Londonderry are the only two identical "John Bull" cachets seen by me, suggesting that all covers serviced with Belfast and Londonderry postmarks were serviced by the same stamp. That used at Lowestoft and seen by me is similar but not identical, as can be seen from the scan of cachet 102 in the main listing, for the Belfast and Londonderry cachets show "1971" while that from Lowestoft in my collection shows "1971". Accordingly, that for Belfast and that for Londonderry are allocated number 21 while that identified by me as used at Lowestoft is now given 102. The number 21 cachet used at Lowestoft has not been seen by me.

THE FOLLOWING TYPES OF F.D.I. POSTMARK ARE USED ON 15/2/71 FDCs :-

BPS FDI postmark types are as per the illustrations below and all are 25mm in diameter (except the type IX) –

Postmark type VI

Postmark type VIA

Postmark type VIII

Postmark type IX

Postmark type PB19

Postmark type VI shows the placename in a single arc at the base of the stamp.

Postmark type VIA shows the first part of the placename below the date in a straight line with an arc of type below to complete the placename.

Postmark type VIII shows the placename in two straight lines below the date.

Postmark type IX was used at London E.C. only, shows no comma after "LONDON" and was a 27mm diameter fixed-date handstamp. In appearance it was the same as the type VI handstamps which were 1-inch (25mm) in diameter and had moveable dates.

Postmark type PB19 was only used at the Philatelic Bureau and is not relevant to this list.

Some locations used more than one handstamp postmark type – these are listed below.

THE FOLLOWING COVERS (SHOWN BELOW IN RED) WITH F.D.I. POSTMARKS, WITH AND WITHOUT "POSTING DELAYED ..." CACHETS ARE IN THE COLLECTION. Items shown in BLACK are known but not in collection. Gaps against town indicate unknown cachet type(s).

Key to cachets :-

First digit represents cachet colour i.e. R = Red, B = Black, V = Violet, M = Mauve etc.

Second digit represents number of lines in cachet.

Square brackets around description represent a boxed cachet.

Inverted commas around description represent cachet with inverted commas at beginning and end.

"JB" represents a cachet made up with John Bull letters (or similar). Letter spacing in "John Bull" cachets can and does vary from strike to strike of the same cachet eg - see Blackburn and Accrington below.

British Postmark Society Office reference numbers and cachet reference numbers are shown in the grey shaded boxes. Cachet and FDI postmark details in turquoise boxes are not recorded by BPS (or are not as recorded) in "20 years of first day postmarks" (pub.1983). Cachet types previously unrecorded by BPS but found by RWB have been allocated cachet numbers commencing 101.

BPS FDI postmark E.R.Ds. shown with yellow background have been recorded by BPS as only used after 15FEB71, but have been found used on 15FEB71 by RB. It must be assumed, therefore, that FDCs recorded in "20 years of first day postmarks" carry 15FEB71 FDI cancellations made with the previously-issued handstamp and are listed as such here.

BPS FDI postmark types listed are as per the illustrations below and all are 25mm in diameter (except the type IX) -

Postmark type VI

Postmark type VIA

Postmark type VIII

Postmark type IX

Postmark type PB19

Postmark type IX was used at London E.C. only showing no comma after "LONDON" and was a 27mm diameter fixed-date handstamp. In appearance it was the same as the type VI handstamps which were 1-inch (25mm) in diameter and had moveable dates.

Also, in the Bath cachet, the "D" of "DELAYED" is over the "E" of "OFFICE" while in the Hounslow cachet, the "D" of "DELAYED" is over the "C" of "OFFICE". This Hounslow cachet is numbered 59 by BPS. RUGBY, WARWICKSHIRE :- In the three line cachets, the first two lines appear identical, and identical with the first line and part of the second line of the two-line cachet. The spacing between the letters of the third line of the three line cachets and the latter part of the second line of the two-line cachet are also identical suggesting that two separate stamps were used together to produce the cachets as seen on the envelopes especially as the position of the third line varies from cover to cover.

Dear Sir Michael

Re: Mr Roger Broomfield, 78 Court Road, Malvern, WR14 3EG

Thank you for your letter of the 5 March to Adam Crozier regarding Mr Broomfield's concerns over older postage stamps. As you are aware I have been asked to look into this case and respond directly to you.

After making further enquiries with our Philatelic department I can now provide a full response for your constituent. On the first point that Mr Broomfield makes regarding the use of half penny stamps, I can confirm that all stamps bearing the decimal p indicator are still valid for postal use. any stamp with a $\frac{1}{2}$ p will be rounded down when used singly but when multiples of two are used these will be added together to make 1p.

Regrettably, our colleagues in our sister company, Post Office Ltd, issued a statement to all counters in March 2009 stating that all $\frac{1}{2}$ p values were to be rounded down. This has resulted in some customers being asked to pay additional postage on correctly stamped mail at some Post Offices and I believe that action has been taken to remedy this disparity in treatment. Unfortunately it remains possible that customers may, on occasion, be told their correctly stamped mail requires additional postage and our advice to anyone wishing to post items carrying these stamps is, therefore, to place them in a post-box where possible.

On the second point of no-value-indicator stamps I can confirm that these stamps are also still valid for use. The example given by Mr Broomfield of stamps marked "E" are valid for the tariff for up to 20 grams to Europe.

Please pass on my sincere apologies for any inconvenience caused by the miscommunication regarding the half penny stamps. I would like to give you my assurance that we at Royal Mail are not complacent about the quality of our service and

we are constantly striving to ensure that our customers receive the level of service they have every right to expect. If I can be of any further assistance please contact me again.

Yours sincerely

A handwritten signature in black ink, appearing to read 'A. Murrie', with a large, stylized flourish at the end.

Dear Colin,

Very many thanks for the information which is now logged. I hope to be able to do another update very shortly.

Yes, I would be delighted to receive scans of the Uley and the Painswick one which really does sound interesting.

Best wishes, Roger (Broomfield)

Subject: Feb 1971 FDCs

Dear Roger,

With reference to your article in BPS Journal July 2011, I have a 15-02-1971 FDC which is not on your list:

ULEY / DURSLEY. GLOS. your type D-B on unaddressed illustrated cover.

I also have a cover with the Lsd Machins from 1d to 1/9 with the same Uley datestamp but 12 FE 1971 on unaddressed plain cover with handwritten annotation "Miss J. Fuggle", so assume the covers were handed back to Miss Fuggle rather than being delivered through the post.

The only other cover from 15-02-1971 which I have found in my Gloucestershire collection is a commercial brown envelope to an address in Painswick, Glos. with 4d red Lsd Machin + 1½p black decimal Machin cancelled by PAINSWICK / STROUD GLOS. your type S-B

I can send scans if of use to you.

Regards,
Colin Fountain

Dear collect-on-the-web,

I have bid for this item and will bid again shortly but the item is rapidly getting to my limit. I am logging CDS postmarks (as opposed to FDI cancellation) on 15/2/71 DEdml Day FDCs (for publication by BPS) and, in case I am unsuccessful in my bid, please could you send me full details of the placenames in the postmarks on two covers in this lot - sorry but I cannot read the scan. If you could also send me a good quality scan of these two covers for my records I would be most grateful. Many thanks.

A word from Tony

Dear Collector,

It is always a pleasure writing an editorial when I feel I have done something worthwhile. I have been running a campaign to get fewer stamps issued by Royal Mail. I was impressed with

Andrew Hammond the new boss and even more so by Stephen Agar the number two in Royal Mail.

They both have listened and I have even been thanked for my help. A far cry from before when the then boss wouldn't even talk to me.

I knew it would take time to change as printing contracts design etc is negotiated well ahead. The changes had to be in 2013 and they have limited the sets to around 12 also dinosaurs have moved from October to be one of next year's issues. Ironically its one I have an autograph for. I do feel rather pleased and grateful that Stephen has allowed this change as it takes courage knowing revenue will fall in the short term but I think it will get collectors gradually back on side.

Sale time in Folkestone, I was so impressed with the number of collectors who bought from our spring sale particularly those who hadn't done so for a while that it gave me an idea. Siobhán has made up the pages to 62 (I kept two) and we are inserting it into Stamp Magazine and Stamp and Coin Mart. I wasn't going to send it out but I felt guilty so I will send out some and it will be on line. It also got me thinking why stop there so I am going to experiment for a few editions with Bargains at all levels. So watch our magazines carefully you may well be surprised

Best Wishes

Tony Buckingham

1977 HIGH VALUES BUCKINGHAM PALACE CDS

GENUINE 1971 LOW VALUE POSTAGE DUE FDC

The stamps were issued on the 15th February in the middle of the great postal strike. FDC are rare genuine one even rarer. I am always suspicious of nice illustrated covers they are so easily forged. They catalogue £750. This is a great fdc correct fee16p (an extra 1/2p) 3 CDS and even better a clear slogan. To give it even better provenance I have a 2.5p postage fdc to go with it. Horley was an office that worked through the strike. Probably unique

Dear Roger

As I currently organise the printing and despatch of the *BPS Journal*, I see the contents before most other members, and I have read with interest your article about 1971 Decimal FDCs with non-philatelic handstamps. I have identified a few anomalies relating to Post Offices in the area around Ashford, Kent – my home town, and whose postmarks I still collect. I enclose copies of pages 54/79-80 from the July *Journal*, with some offices annotated in red; the anomalies are as follows:

- BETHERSDEN ASHFORD KENT – entry duplicated in columns 1 and 3
- BIERTON ROAD ASHFORD KENT – there is not and never has been a PO of this name (or indeed such a road!) in the Ashford area; there are Bierton Roads in Aylesbury and Birmingham, but neither now has a PO. Ken Smith (see page 54/97) could probably help you identify which one had a PO in 1971.
- BRABOURNE ASHFORD KENT - there is not and was not in 1971 a PO called just "Brabourne"; Brabourne Lees is still open, while East Brabourne closed in 1973.
- LEES ASHFORD KENT – again, no PO called Lees in the Ashford area; possibly this and the Brabourne entry relate to Brabourne Lees, and have got split at some stage.
- MARSHAM ASHFORD KENT – correct spelling is Mersham (pronounced Merzum).
- NORTH WILLESBOROUGH AYLESHAM KENT - should be Ashford Kent; North Willesborough is still open, as a sub-office of Ashford.

Of course, I do not know whether these discrepancies arose in John Holman's or other existing lists, in your own list, or in the editorial process. As you will see from the July *Journal*, I am taking over from John Fowler as Editor, with the preparation of the October issue, so any corrections or additions available by September can be sent to me.

Yours sincerely

JOHN ENFIELD
Editor-in-Waiting, BPS Journal
