“IN-DEPTH UK SLOGAN POSTMARKS LISTINGS” (Volume 1 : The Sixties)

By Colin G Peachey

**Details of all towns using multi-town slogan
postmarks from 1960 to 1999, in 4 volumes**

Published 1996

This file contains a volume published in print by the
Author and digitised in 2019 to mark the
Diamond Jubilee of the British Postmark Society.

It is made available free of charge and may be quoted
freely, but acknowledgement of the source would be
appreciated.

It should be noted that advertisements and contact details
were correct at the time of original publication,
but are now likely to be out-of-date.

BY COLIN G PEACHEY

SUB TITLED "COLIN PEACHEY'S LIFE WORK"!

VOLUME 1 : THE SIXTIES

FOREWORD

Well it wasn't really my life's work, it just seemed like it! How I time-shared collecting slogans and recording all the data with a normal working life and a family, let alone my other postmark interests and the production of various postmark books, I shall never know. The point is that all the data has been retained and it seems a shame not to publish it, albeit to a limited audience of dedicated collectors. I have to say "dedicated" as it takes a certain undefinable dedication to collect slogans "in depth". This term is used to describe those who collect specimens of every town using every slogan.

I have kept this data on various handwritten or typed documents (up to 1988 when I was "converted" to a word processor), thus the production of this book has allowed me to bring the data altogether on disc and print it in more orderly fashion. I am planning to produce four volumes covering 10 years each.

I dedicate this work to Valerie, my wife of 33 years, who deserves sincere thanks for her endless tolerance, support and assistance.

INTRODUCTION

1. THE "SLOGAN POSTMARKS OF THE UK" BOOKS

As a dedicated collector of slogan postmarks since 1960, most of the data I have compiled and suitable for the needs of most collectors is contained in the series of books "Slogan Postmarks of the UK" details of which (there are four volumes, with a fifth due in 2000) are shown opposite. These have been compiled under the authorship of "Parsons, Peachey & Pearson", since my two good friends Cyril Parsons and George Pearson started the lists in 1958 or thereabouts, and produced their first slogan catalogue in 1962. I joined in in about 1968 and have done most of the compilation and production work since the mid 1970s. George sadly died in 1989 but the work continued under the joint authorship as a tribute to George's sterling work. The last of the slogan postmark books, "Slogan Postmarks of the Nineties : part 2 1995-1999" is due to be published in 2000.

Readers of this volume are expected to be familiar with these books and the reference numbers are included as a cross reference to the "PPP" books. "Collecting Slogan Postmarks", the flagship of the series, gives the background to what slogans are, how they developed, and shows details of the usages of slogans from 1917 up to 1969.

2. THE REASONING FOR THESE BOOKS

One element of the data was missing from the "PPP" books, and that is the details of WHICH TOWNS (or "offices" as we tend to call the Post Office sorting offices involved) used the multi town slogans. "PPP" details these towns only up to 7 or 8 towns but not above that. To complete the picture IN DEPTH LISTINGS gives all details of slogans used at two or more towns. The lists are bulky and have taken many hours to compile - known colloquially by me as my "LIFE WORK"! The second element of this work is the EARLY and LATE USES. Post offices at many towns seem unable to stick to the announced dates of slogan campaigns and many hours have been spent logging all of this data, with lists of observed late uses sent in by other collectors. For the first time they are all listed here!

3. COMPLETENESS

Naturally I cannot claim the lists to be complete. Forgive me, but I do not wish to receive long lists of additions at this stage, at a time when I am completing my work on the topic. My suggestion is that you make additions to MY lists to make them YOUR lists! Please write to me if I have made a serious error (and a correction can appear in the next volume) but not for individual additions.

In the period to 1958-61, George Pearson compiled similar lists, with the help of BPS members, and this data (published in the BPS Quarterly Bulletins) I have used to enlarge my own lists, and such entries I have marked with "<". George stopped this arduous work in 1962 and Capt Haworth took over for part of 1962 and published similar lists, which I have used in a similar manner. From 1962 George published "list A" from the Post Office including all the offices that SHOULD have used all the national slogans. Although I have continued to include "<" entries based on this list it means the meaning of < has subtly changed. Earlier it had meant "recorded seen by someone, not be me" and later it means "should have been used but not reported". As the 1960s progressed and many towns had LP and similar slogans of their own, list A became less reliable and I have dropped the use of "<", noting "announced but not used" towns where known.

While I have completed the data compilation, I have not done this without lists from other collectors, and this is much appreciated. There are too many to mention, but those who have helped over prolonged periods include Patrick Awcock, Kate Burnell, P J Dawling, Martin Grier, Andrew Gulliver, Frank Harwood, Colin Langston, Michael Middlemiss, John Newcomb, and last but not least several members of our own families, notably Tony Bosworth. The help of numerous others is appreciated: please note it is not too late to help with the remaining years of the 1990s!

4. THE TOWNS USING SLOGANS

Listed are all MULTI TOWN slogans, but exceptions are (a) LP slogans (b) IOM slogans used at Douglas, Ramsey etc and (c) Newmarket slogans shared with Cambridge, all of which are omitted. The reference numbers are those of the PPP books and are not consecutive since the one-town entries are all missing.

The town die (which should not be separated from the slogan) shows the town of posting. Further complications set in, as explained in sections 5 and 6. Then there is the "die letter" which distinguishes one stamp cancelling machine from another: these are explained in sections 7 and 8.

5. JOINT OFFICES AND GENERIC DESCRIPTIONS

The first complication, and one which goes back many years, is that of "joint offices" eg Brighton & Hove, Rochester & Chatham and so on. There were changes affecting such offices eg Burnley & Nelson became Burnley alone, later Burnley & Pendle. A further example of the sort of complication which I will not describe here is that after "Blackburn & Accrington" was introduced at Blackburn, separate Blackburn and Accrington dies both also continued in use for some years! The second complication is that of generic identities. With the march of concentration, which got under way in the 1960s, smaller towns gradually ceased to stamp mail and generic inscriptions were invented to describe a concentration area, this of course being used at the new "centre" or Mechanised Letter Office (MLO, enhanced and changed to APC in the 1990s) where mail was stamped instead. The first "generic inscription" was "Fylde Coast" used at Blackpool from 1966 (with several variations) and many more were to follow.

In some cases the expanded area, denoted by either a joint or generic inscription, was then changed again when the area expanded further. Examples are Harrow, changed to "Harrow & Wembley" then later to Harrow again, and Swansea, changed to "West Glamorgan" then to Swansea again and later still to "Swansea & SW Wales"! It would take more space but it is tempting to tell the story of each such town! However I will take space to give a listing of joint towns/generic identities even though it covers a period beyond the Sixties: I am not certain of the earlier dates, if anyone can help then I can correct these in readiness for the next volume!

* denotes Sunday only usage. + denotes still in use (1996) but only on locals/missorts so seldom seen. Slogan usage is not taken into account in this list.

<u>Generic/joint description</u>	<u>Town where used</u>	<u>Dates of use</u>

West Glamorgan	Swansea etc	1975-80
Worcester District	Worcester	1973-83
(also at Droitwich, now ended, but still going at +Evesham,+Malvern)		

6. LONDON MOUNT PLEASANT

For many years up to about 1994 the arrangements in London EC were that postings destined for London, Overseas and Country were processed separately. Double aperture pillar boxes allowed for "London and Overseas" to be collected separately from "Country" mail, then London mail was processed at EC Section and overseas mail at Foreign Section, both of which were housed in King Edward Building. Country mail was taken to Mount Pleasant (in Farringdon Road) where the postmark read purely "London" plus die letter. This inscription was changed to "London IS MLO" (meaning London Inland Section) from 1980. In 1994 the London EC postmark ceased and from then onwards all London EC mail was handled at Mount Pleasant (with Foreign Section moved there too, the FS machine postmark also having by that time ceased).

7. TOWN DIE LETTERS

Basically the town dies show the town of posting, plus a letter or number to show the individual stamp cancelling machine. There the simplicity ends however, as there are more exceptions than standard cases. The first development is that a town die WITHOUT a letter is then followed by one WITH one. For example Harrow had one machine with no letter in its town die and a second with A. These, when both used, are shown in the listings as "Harrow, and A" in order to be brief.

I am not certain why the main stamp cancelling machines at Birmingham in use in the 1960s were lettered A, E and G, and at Manchester C, F, K, L and P, but they were! The next complication is that at Manchester further die letters are H (Head Office), E (East), S (South), N (North) and W (West), along with SE (South East) and so on: however, at Birmingham E is at the Head Office (ie it is NOT East) but Manchester E means East and is used at the Eastern District Office. Only experience (or chapter 10 of "Collect British Postmarks") can tell the collector which is which, but I have left a space, each time listed, after the Head Office dies and before the District Office dies, eg Glasgow A, B, C, followed by a space before S, SE, SW, W, W3. This applies to Birmingham, Edinburgh, Glasgow, Liverpool and Manchester. At Birmingham the district offices are further complicated: these are ADO (Aston), CH (Camp Hill), ED (Eastern District), H (Hockley), and WDO (Western District Office), but by the 1990s "H" has become a normal machine at the MLO. Erdington and Moseley DO are listed alphabetically, as are Leith DO and Portobello DO of Edinburgh.

Chapter 10 of "Collect British Postmarks" (Sixth Edition) contains a full listing of towns (including District Offices) that used machines from 1933 onwards.

8. DIFFERENT TYPES OF MACHINE

I do not intend to repeat the descriptions of ALFs, FCTs and CFCs already included in the "PPP" books. Suffice it to say that the ALF machines had four streams and FCTs and CFCs have two streams each. Usually the town dies indicate this but sometimes not so. The first ones, namely the S and T ALF machines at Southampton, did not do so, there being four S or T dies though later changed to S1-4 and T1-4.

9. NUMBERS OF SLOGAN DIES

Throughout the listing I have attempted to show the numbers of dies used, and counting the numbers of TOWN DIES can be misleading. On the other hand there is

nothing else to go on. For example there were frequently from 10 to 13 town dies used at London (Mount Pleasant) but how many slogan dies does this represent? The answer is usually less than the 10-13 number eg six dies. At smaller offices the number of town dies is more reliable eg Leeds A,B,C usually means three slogan dies. The conclusions are that (a) I have used a certain amount of judgement in assessing the numbers and (b) all numbers are approximate.

10. TOWN DIES NOT USED AT THE TOWN STATED

The most well known example is Wadhurst. Wadhurst had a Krag machine in the 1960s and used no slogans. But on Sundays mail was taken to Tunbridge Wells where a Wadhurst town die was used in the Tunbridge Wells machine. Thus slogans were used, and whenever a slogan was used at Tunbridge Wells it was to be found with a Wadhurst town die for this reason. Similarly, though I am less certain about these, I suspect Mossley (at Ashton-under-Lyne), Ramsbottom (at Bury??) and Willenhall (at Walsall??) were all used as shown here in brackets, possibly only on one collection per day, though I assume not confined to Sundays. Specimens from these towns seem to be difficult to find!

11. TOWN DIE LAYOUTS

At one point I used the Kneil/Parsons classification which used roman numerals to show the layout of the die and whether there were arcs between the inscription at the top and the inscription at the bottom eg 1.I meant town/county at top & bottom with no arcs, 1.II the same but with arcs. I have simplified things in this volume, however, by ignoring the layout and just saying whether the die has arcs or not, and then only when both exist, otherwise I have not mentioned it at all. Hence the terms "arcs" and "no arcs" in my listings. Others that are obvious are those such as Reading which showed a + sign to either side (later X) to distinguish one die from the others. Why they did not all use letters A to Z I will never know!

12. TOWN DIE LETTERINGS

The lists unashamedly use the "Peachey classification" of town die letterings, particularly where there are no differences between town die inscriptions, it is only the shape and font of the lettering that differs. See section 18 for details.

13. SLOGANS USED IN STANDARD AND TRANSPOSED POSITIONS

Although transposed slogans (with slogan on the LEFT) started in 1963 it took some time before "transposed" uses of national slogans appeared, and even in 1965-67 there were few, with more in 1968-69. I have noted transposed uses in one of two ways, as inspection of the listings will show. Where the majority are standard (slogan on the RIGHT) I have highlighted transposed by underlining. Where a mixture of both, as in 1968-69, I have shown each as "std" and "trans". If the reference number is suffixed by "t" (for transposed) ALL the towns were transposed.

14. SEQUENCE

By convention I have always listed London first, and under London (a) Mount Pleasant usually comes first followed by the other Central London "1" offices (known as the "District Offices" to the mid 1980s) (b) then the sub-districts if used (including SW11 and W2 which were also District Offices); these are typically only involved for "Christmas" slogans and a few others (c) the alphabetic lists, (d) early and late uses. Triangles, where known, are shown at the end, but I have usually excluded these if the period of use is uncertain (as they are not dated) and I have ignored diamonds even if their town of usage is known. Other varieties, such as Inverted slogans, are not normally listed though may have been included in a few instances.

15. FIRST DAY SLOGANS

For full details see "Twenty Years of First Day Postmarks" by Brian Pask & Colin Peachey, published 1983.

16. POSTCODE SLOGANS

With these slogans I have taken a DIFFERENT line. Instead of a more complex description, with every town die used and when it was used, I have decided the PPP books show these slogans in sufficient detail. Thus what is need is a SIMPLIFIED listing. Thus I have attempted to show the towns involved, and whether standard and/or transposed but not the dates of every change, and little else. For more details refer to the main listings of "CSP" and "Seventies", and chapter 4 of "Slogan Postmarks of the Eighties" and "Nineties".

17. SLOGAN DESIGNS WITH SUB-TYPES

There are four designs which involved the production of dies in such numbers and at different times that different manufacturers were probably involved. This in turn resulted in slight differences which are apparent to the keen eyed collector. Details are shown in sections 17.1 to 17.4 that follow :

17.1 RADIO TV LICENCES

Initially there were four sub-types A to D. Most specimens can be allocated to these four sub-types but there are one or two "rogue dies" that do not fit precisely. From 1965 a type G occurs. Types E and F were earlier distinguished but the differences are so slight I have dispensed with these two sub-types.

Sub-type G

Differences are difficult to describe, but (a) examine the point at the bottom of the design, which is under the R in type A and under the O in type B (b) examine the two Rs of FOR RADIO which are wide in types A and B, narrower in C and D, medium in G (c) the cross-bar of the A of RADIO which is low in type C, higher in type D and G (d) in type G both the shape of the Rs of FOR RADIO and the two Cs of LICENCE are distinctive.

17.2 VOTERS LISTS (also shown on page 34 of "Collecting Slogan Postmarks")

Type 98

Type 98A

Type 98A new sub-type

Type 98B

Type 98 has large letters and no lines at the right of the design. Type 98A has smaller lettering, lines at right of design, and the T of LISTS is to the left of the T of THE. Type 98B is similar but different shape to the C of CHECK and the T of LISTS is to the right of the T of THE. The fourth type was introduced

in 1964 (1965 specimen shown here) and is listed as "type 98A new sub type" since like type 98A it has lines at right and the T of LISTS is to the left of the T of THE. But, more like type 98B, it has a distinctive shape to the C of CHECK and the R of VOTERS is also distinctive. There are two further sub types introduced in the 1970s.

17.3 POST EARLY FOR CHRISTMAS ("Candle" design)

The two sub types are shown here but are NOT distinguished in the lists since (a) I am not convinced their difference warrants it and (b) the data I have is not broken down by the two sub types. The lettering in the first sub type is thicker and the F of OF is to the left of the I of CHRISTMAS. In the second sub type the lettering is thinner and the F of OF is over the I of CHRISTMAS.

17.4 RECORDED DELIVERY

The two sub types are illustrated here, the "main type" being type 189. In the second sub type, type 189A, the lettering is thicker, the 6D is larger, and the shape of the letters R and C differs. Type 189A was only used in 1964.

Type 189

Type 189A

18. TOWN DIE LETTERINGS - THE PEACHEY CLASSIFICATION

The lettering of modern Universal machine town dies differs as different manufacturers are used. The "Peachey classification" of town dies used post war was first published in the British Postmark Society Quarterly Bulletin some years ago, and in 1991 was abbreviated and updated for publication in Royal Mail's British Postmark Bulletin - described here in totality even though it extends beyond the 1960s. It breaks the letterings into different styles or types. Readers should note the dies are not always easy to recognise, and the types are difficult to describe, but with some experience dies can be "dated" in that the types conform to respective periods of manufacture. Most offices with two or more machines seem to have town dies in use of more than one type since normally manufactured at different times, the exception being when a generic inscription is introduced then all the dies of one town are produced together, until replacements are later required and the cycle starts all over again!

Type 1 dies are termed "old large lettering" and had been in use from the 1920s; examples still in use in 1995 are Beckenham and Invergordon. Type 1a, old narrow lettering, has similar letters but narrower and not so rounded; rarely seen with arcs between town and county, and used for dies introduced from about 1945 into the early 1950s, and Stourport-on-Severn is a recent example.

Type 2, "old style", was used for many dies introduced between 1947 and 1958. Many such dies, presumably the lesser ones, have remained in use until quite recently - many of the London missort dies provide examples up to 1993 or so, also Emsworth a nice example with arcs and Todmorden without, both used to the early 1990s. Type 3, "narrow lettering", also applies to large numbers of dies since it was used for most of the dies produced between 1958 and 1967 and then from about 1970 to 1976, thus the first generics ("Rhondda" and "Fylde Coast" in 1966) and many of the "new county" dies introduced in 1975 were of this style; some of the small offices in East Sussex and in Wales are still using these dies.

A highly distinctive style of small squarish appearance was used for a short period of manufacture in 1963-64, and type 4 is known as "squat lettering" (as is style 12 in the 1990s). Only 54 dies are known and Glasgow B survives in 1995. Close on its heels was type 5, "narrow lettering new style", with new letters having flat sides and about 450 dies are recorded, introduced chiefly in 1964-65 and a few remained in use into the 1990s. Letters are not consistent, however, as comparing the two Cs in Wick will show.

Type 6 was similar to type 3, but in 1967 a few dies appeared with lettering closer together - only seen from Birmingham, Carlisle, Manchester and Newport Mon. Type 7, "new wider lettering", was more numerous again on new dies introduced from 1968 to 1971; like type 5 in terms of individual letters but letters wider.

Type 8 is very different, "very narrow lettering", used from about 1980, and dies lasted to the 1990s: the "&" is distinctive and is shown here. Type 9 is also distinctive in having a "bump" at top and bottom of the town die, and about 130 such dies were manufactured in about 1984. Very few of type 10 were made. Here the letters are further from the rim and close together, and most were short-lived - possibly a new material was used. Type 11 lasted for some years and most new dies in the period 1985-93 were of this style - narrow lettering and not unlike type 5. Type 12 (not shown here) is a clear squat type lettering and was introduced in late 1993, and new dies up to 1995 are of this style.

19. USE OF THE DATA IN THIS BOOK

Collectors, researchers and compilers of other works are encouraged to use the data from this book as they work on their own topics. However, they are asked to acknowledge the source.

20. SYMBOLS USED

< office listed by BPS or (later) from GPO list

E = earliest ("by" often used with similar meaning)

L = latest

(U) = unannounced

(number in brackets) usually means number of SLOGAN dies used, sometimes my judgement!

21. THANKS

As well as those mentioned in section 3, particular thanks are due to Cary Knott and Phil Gains who have kindly helped check some of the lists and who have added some additional entries.

MAIN LISTINGS

294 World Refugee Year (with hand design) 1-8 Jan 1960

Triangles : -CL-/MTP, EC, -L-/NW1, SE1, L/W2, SE15, KT, 445, 449, 733, 918, S7

Listed as 350 dies, about 332 dies listed above

Early use : 31 Dec 1959 Lancaster & Morecambe A

Late uses :

9 Jan London NW1 B, NW9, SE13, SW3, Leicester B
 10 Jan London NW1 A, NW2,10A,11, Brighton & Hove, Hastings, Uxbridge A
 11 Jan NW3,6, Smethwick
 12 Jan Inverness

ALSO Halifax "defaced version" 295 apparently used 9-11 Jan,

296 Correct Addressing 1 to 29 Feb 1960

Note : 296/297 were in use together, often at the same offices, as inspection of the two lists will show. 175 dies of each design were in use, but the number shown here exceeds that number: this difference is partly explained by Mount Pleasant using both designs in all machines, probably 6 dies of each.

London D,F,G,H,I,J,K,<L,M,<O,P,<T,	E1,	EC D,<F,<K,

There were four sub types of this slogan, shown below as A,B,C,D where sub-type is known; at large offices town dies/slogan dies were not necessarily used together for the whole period, thus the slogan types used are shown once for the office.

Only offices actually recorded are shown here, and others, even though they had used the slogan in 1961, are not included.

372 Road Accidents 14-31 July 1962

NOTE : there was clearly some re-allocation of dies for this slogan compared to the normal distribution, with such offices as N9, SW2 and Bridlington using the slogan. One therefore cannot be too sure which of the normal offices used the slogan eg no sign of Cardiff or Chelmsford, such offices at present being marked with < but these are not listed anywhere. I have retained the "<" entries but I have less faith in them than previously.

454/454A Recorded Delivery (fifth use) 1-31 May 1964

A second sub-type appeared for the first time, listed as 454A (see end of main section), with slight but recognisable differences in design.

Note : the meaning of the < entries has changed slightly by this time, since with a number of LP and other long running slogans (eg Lincoln) one cannot be certain the old "list A" still pertains. The < entries here have NOT been recorded as being used, and are therefore little more than ideas of offices that are missing from the list and where the slogan MAY have been used. Not included in the total.

616/t Radio-TV Licences 4 April to 3 May 1966

There were five sub types of this slogan, shown below as A,B,C,D,G where sub-type is known; at large offices town dies/slogan dies were not necessarily used together for the whole period, thus the slogan types used are shown once for the office.

For this issue I have a PO list of die allocations so the < entries are ones on this list that have not been seen. Others announced but not used at Guernsey, High Wycombe (both still using "Dr Barnardo's", London EC (7), Dundee (LP slogan), Manchester (5) and Taunton. The numbers of dies are from that list and are here shown in brackets, one die if not indicated.

London G,H,I,J,K,O,P,T (A and B)(8), E1 A, Great Britain B(A and G)(2),
N1 A,B,C (A and G)(2), NW1 A,C (A and B)(2),
SE1 E (A)(3), SW1 C,D,G (A and B)(5),
W1 D,E (B and C)(3), WC D (B)(1),

E 8(A)(PO list has E11 not E8),15(A),17(B),
N 4(A),16(A),

723-725 Voters Lists 28 Nov to 11 Dec 1966

A new sub type was used for the first time in 1964, and used again in 1965-6 is here shown at the end of 724 - type 98A. Note there are two transposed uses here, of 724t. < entries are shown by comparison with the Post Office listing which I have for this slogan. Thus they are more substantive data than the previous years and they are shown in a separate list at the end.

 31 Dec Neath

1198/t National Children's Home 1 Jan to 31 Dec 1969

Note : I produced this list in 1990 for submission to the Methodist Philatelic Society who reprinted it in their journal. I have had no feedback.

London N1 A,B transposed, both town dies used from time to time
standard E 23 May, B machine,
new B town die with wide lettering E 30 Oct,

London NW1 B standard

London SW1 B standard,

London WC E standard, later C,D dies used instead,

Willesden NW10 standard,
NW 10A die used E 18 Aug and from time to time thereafter,

Battersea SW11 transposed,
standard by 26 Feb,
different town die with shorter arcs E 14 April,
thereafter both town dies used from time to time,
also Battersea SW11 Gt Britain seen used 15 March,

Paddington W2 B (dot after Paddington) standard,
also A, B (no dot) used from time to time, also missort die London 75,

Barry transposed,

Bristol NDO (North District Office) transposed,

Canterbury (with arcs) transposed,
later both 'arcs' wide lettering, and no arcs town dies,

Cardiff B transposed,
then standard both A and B dies approx 6 to 17 March,
transposed again both B and A dies E 26 March,
transposed but new A die E 20 June, later wide lettered B die also,

Chelmsford TWO dies transposed (used on 1st & 2nd class), narrow & wide
lettering town dies, later two town dies changed round,

Cirencester standard L 7 Aug,
transposed E 9 Aug,

Coventry.Warwickshire A standard,
later Coventry B/Warwickshire and Coventry D/Warwickshire,
transposed (A die) E 1 Oct, later D, also E die E 19 Oct,

Driffield transposed, Gt Britain die also reported,

Exeter -Devon- transposed (interrupted for "Devon Show", "Son et Lumiere"),
standard also reported but not seen,

Fylde Coast 1 (used at Blackpool) transposed,
later Fylde Coast 2,

Glasgow-N (North) transposed,

Guildford transposed, at least two similar town dies,

Harrogate Yorkshire Gt Brit standard,
transposed E 14 Sep,

Leeds A,B,C standard, all 3 dies all used from time to time,
later new A (wide lettering) and C (shorter arcs) dies,

Manchester F standard,

Newcastle upon Tyne B no arcs standard L 16 March then interrupted,
transposed with B 'with arcs' die E 20 June,
(major break to slogan die, letters "NAT" missing E 12 Dec)

Norwich -Norfolk- transposed,
also -A-1-, 2, 3 (two town dies), 4, all in use, total 4 or 5 dies,

Nottingham B standard,
later C,D,E dies all used from time to time,
new B die (wide "NO") E 12 Dec,
also used with census diamond,

Pitlochry transposed,

Sheffield A standard,
later new A die (shorter arcs), also B,C,D,F dies,
later also one ALF die ('A something') - die number unreadable,

Solihull A standard,
later Solihull (no 'A') standard,
transposed (Solihull A) E 26 July, later Gt Britain die seen 26 Aug,
standard again (Solihull A) E 7 Dec,

Southampton C standard,
transposed E 27 Feb,

Tunbridge Wells A standard L 13 Jan,
transposed E 14 Jan,
new A die (large letters) still transposed E 29 May,

Warrington -Lancs.A.- transposed,
later C,D and Great Britain dies all used from time to time,
standard (A die) E 28 Sep,
but transposed again E 8 Oct,
new A die with large letters and no dot after Lancs E 20 Nov,

Wigan B transposed,

Wimborne standard,
new town die with shorter arcs E 13 June,

Used at 33 offices, one slogan die at each office (two at Chelmsford and four or five at Norwich), but used with several town dies in most cases over this long period. At several offices the slogan was interrupted by other slogan campaigns.

Also listed in Methodist Philatelic Society's handbook but no specimens known :
"Portsmouth & Gosport" (title given to Portsmouth Head Office, postmarks inscribed "Portsmouth & Southsea", but could have been used at Gosport),
Sheringham.

Late uses :
12 January 1970 Southampton C transposed
17 January 1970 Tunbridge Wells A transposed
8 February 1970 Exeter transposed
15 February 1970 Cirencester transposed

POSTCODE SLOGANS

This chapter is designed as a simplified listing of the "mainstream" postcode slogans. It is not planned to include the Newport Mon rhyming slogans or the MLO slogans of the 1977-79 period, or "Postcode Exhibition" or others that happened to mention the postcode topic.

To keep it simple I do not claim to include details of all town die changes, and detailed dates, just overall dates, towns used, and standard/transposed details. Unlike the rest of this volume, where listings are in MORE detail than the slogan catalogues, in this instance reference should be made to them for more details of dates and changes. "Standard/transposed" changes are mentioned only once even if there were several such changes. The convention is for the major town to come first, followed by the others in alpha order.

314 type 167 NORWICH 5 Sep 1960 to 30 June 1961

Norwich types 2 & 3 - two slogan dies, which can be distinguished by the shape of the S's in Addresses. Triangle : 575

334 and 434t type 174 NORWICH 1 July 1961 to 31 March 1967

Listed separately for standard (334) which ran to 9 Feb 1964, and transposed (434t) which started on 10 Feb 1964.

Norwich types 2 & 3 - two slogan dies, which can be distinguished by the shape of the C of Codes. Triangle : 575 std & trans

375 type 206 NORWICH 27 Aug to 27 Sep 1962

Experimental long design used at Norwich.

722t type 460 CROYDON area 21 Nov 1966 to 31 March 1967

Croydon, arcs type 5, new die but thinner lettering by 14 Dec, and A,
 Caterham, Coulsdon,
 Mitcham. 5 dies used.

Triangle : 938

758 type 485 CROYDON area 1 April 1967 to about 29 Feb 1968

Croydon, and A - ended 31 Dec 1967

Caterham, Coulsdon (to 7 May 1967), Mitcham

Triangle : 938

759 type 485 NORWICH 1 April 1967 to 19 Feb 1968

Norwich, and A-1,2,3,4

Triangle : 575

814, 832 & 836/t type 485 ABERDEEN area 6 June 1967 to 19 Feb 1968
