

BRITISH POSTMARK SOCIETY

“IN-DEPTH UK SLOGAN POSTMARKS LISTINGS” (Volume 2 : The Seventies)

By Colin G Peachey

**Details of all towns using multi-town slogan
postmarks from 1960 to 1999, in 4 volumes**

Published 1997

This file contains a volume published in print by the
Author and digitised in 2019 to mark the
Diamond Jubilee of the British Postmark Society.

It is made available free of charge and may be quoted
freely, but acknowledgement of the source would be
appreciated.

It should be noted that advertisements and contact details
were correct at the time of original publication,
but are now likely to be out-of-date.

BY COLIN G PEACHEY

SUB TITLED "COLIN PEACHEY'S LIFE WORK"!

VOLUME 2 : THE SEVENTIES

FOREWORD

I received an encouraging response from fellow collectors after Volume 1, and I am therefore all the more delighted to complete Volume 2 covering the Seventies, evoking many happy memories of collecting over that period. Decimalisation, the postal strike, county changes and the spread of postcodes all had to be coped with. However, I am once again pleased to have put together all the data, previously kept on handwritten and typed documents, to produce this volume. Slogan enthusiasts are dedicated people, and I hope production of this book will encourage them still further.

This book comes just as Royal Mail have announced (in 1996) withdrawal of the valuable reposting facility. So much for Royal Mail's help in pursuit of our hobby! I hope collectors will not be put off by this move, and even if the 1990s is made more difficult, I recommend collecting of the 1970s of which there is no shortage of material.

I once again dedicate this work to Valerie, my wife of 34 years, who deserves sincere thanks for her endless tolerance, support and assistance.

INTRODUCTION

1. THE "SLOGAN POSTMARKS OF THE UK" BOOKS

As a dedicated collector of slogan postmarks since 1960 I have compiled much slogan data. The data suitable for the needs of most collectors is contained in the series of books "Slogan Postmarks of the UK". Details of these books are shown opposite: there are currently four volumes, with a fifth due in 2000. These have been compiled under the authorship of "Parsons, Peachey & Pearson", following the era when my two good friends Cyril Parsons and George Pearson started the lists in 1958 or thereabouts, and produced their first slogan catalogue in 1962. I joined in in about 1968 and have done most of the compilation and production work since the mid 1970s. George sadly died in 1989 but the work has continued under the joint authorship as a tribute to George's sterling work. The last of these slogan postmark books, "Slogan Postmarks of the Nineties : part 2 1995-1999", is due to be published in 2000.

Readers of this volume are expected to be familiar with these books and the reference numbers are included as a cross reference to the "PPP" books. "Collecting Slogan Postmarks", the flagship of the series, gives the background to what slogans are, how they developed, and shows details of the usages of slogans from 1917 up to 1969. "Slogan Postmarks of the Seventies" is obviously the relevant book that is parallel to this particular volume.

2. THE REASONING FOR THESE BOOKS

One element of the data was missing from the "PPP" books, and that is the details of WHICH TOWNS (or "offices" as we tend to call the Post Office sorting offices involved) used the multi town slogans. "PPP" details these towns only up to 7 or 8 towns but not above that. To complete the picture IN DEPTH LISTINGS gives all details of slogans used at two or more towns. The lists are bulky and have taken many hours to compile - known colloquially by me as my "LIFE WORK"! The second element of this work is the EARLY and LATE USES. Post offices at many towns seem unable to stick to the announced dates of slogan campaigns and many hours have been spent logging all of this data, with lists of observed late uses sent in by other collectors. For the first time they are all listed here!

3. COMPLETENESS

Naturally I cannot claim the lists to be complete. Forgive me, but I do not wish to receive long lists of additions at this stage, at a time when I am completing my work on the topic. My suggestion is that you make additions to MY lists to make them YOUR lists! Please write to me if I have made a serious error (and a correction can appear in the next volume) but not for individual additions.

In the period 1958-61 George Pearson compiled similar lists, with the help of BPS members, and this data (published in the BPS Quarterly Bulletins) I have used to enlarge my own lists, as readers of Volume I will have seen.

While I have completed the data compilation, I have included data from other collectors, and this is much appreciated. There are too many for a complete list, but those who have helped over prolonged periods include Patrick Awcock, Kate Burnell, P J Dawling, Martin Grier, Andrew Gulliver, Frank Harwood, Colin Langston, Bill Meredith, Michael Middlemiss, John Newcomb, and last but not least several members of our own families (ie the families of Valerie and myself), notably Tony Bosworth. The help of numerous others is appreciated: please note it is not too late to help with the remaining years of the 1990s!

4. THE TOWNS USING SLOGANS

Listed are all MULTI TOWN slogans, but exceptions are (a) LP slogans which are omitted (b) IOM slogans used at Douglas, Ramsey etc (c) Newmarket slogans shared with Cambridge (d) other two-town slogans where I felt I would add nothing to the entry in "Seventies" eg Grays and Romford. The reference numbers are those of the PPP books and are therefore not consecutive numbers since the one-town entries are all missing.

The town dies, which should not be separated from the slogans, show the town of posting. Two complications arise (a) where the description is more than just one town, as shown in sections 5 and 6, and (b) the "die letter" which distinguishes one stamp cancelling machine from another but sometimes has other meanings: more on this in sections 7 and 8.

5. JOINT OFFICES AND GENERIC DESCRIPTIONS

The first complication, and one which goes back many years, is that of "joint offices" eg Brighton & Hove, Rochester & Chatham and so on. There were changes affecting such offices eg Burnley & Nelson became Burnley alone, later Burnley & Pendle. A further example of the sort of complication which I will not describe here is that after "Blackburn & Accrington" was introduced at Blackburn, separate Blackburn and Accrington dies both also continued in use for some years! The second complication is that of generic identities. With the march of concentration, which got under way in the 1960s, smaller towns gradually ceased to stamp mail and generic inscriptions were invented to describe a concentration area, this of course being used at the new "centre" or Mechanised Letter Office (MLO, enhanced and changed to APC in the 1990s) where mail was stamped instead. The first "generic inscription" was "Fylde Coast" used at Blackpool from 1966 (with several variations) and many more were to follow.

In some cases the expanded area, denoted by either a joint or generic inscription, was then changed again when the area expanded further. Examples are Harrow, changed to "Harrow & Wembley" then later to Harrow again, and Swansea, changed to "West Glamorgan" then to Swansea again and later still to "Swansea & SW Wales"! It would take more space but it is tempting to tell the story of each such town! However I will take space to give a listing of joint towns/generic identities even though some refer to periods earlier than the Sixties. I am not certain of all the earlier dates, and if anyone can help with confirmation of these then I can correct them in readiness for the next volume. The list has already been improved and updated since Volume I.

* denotes Sunday only usage. + denotes still in use (1997) but only on locals/missorts so seldom seen. Slogan usage is not taken into account in this list.

<u>Generic/joint description</u>	<u>Town where used</u>	<u>Dates of use</u>
London IS MLO	London ME Pleasant (see section 6)	1980-96

West Glamorgan	Swansea etc	1975-80
Worcester District	Worcester	1973-83
(also at Droitwich, now ended, but still going at +Evesham,+Malvern)		

6. LONDON MOUNT PLEASANT

For many years up to about 1994 the arrangements in London EC were that postings destined for London, Overseas and Country were processed separately. Double aperture pillar boxes allowed for "London and Overseas" to be collected separately from "Country" mail, then London mail was processed at EC Section and overseas mail at Foreign Section, both of which were housed in King Edward Building. Country mail was taken to Mount Pleasant (in Farringdon Road) where the postmark read purely "London" plus die letter. This inscription was changed to "London IS MLO" (meaning London Inland Section) from 1980. In 1994 the London EC postmark ceased and from then onwards all London EC mail was handled at Mount Pleasant (with Foreign Section moved there too, the FS machine postmark also having by that time ceased). Then in 1996 the town dies changed again to read simply "Mount Pleasant", not even showing "London"!

7. TOWN DIE LETTERS

Basically the town dies show the town of posting, plus a letter or number to show the individual stamp cancelling machine. There the simplicity ends however, as there are more exceptions than standard cases. The first development is that a town die WITHOUT a letter is then followed by one WITH one. For example Harrow had one machine with no letter in its town die and a second with A. These, when both used, are shown in the listings as "Harrow, and A" in order to be brief.

I am not certain why the main stamp cancelling machines at Birmingham in use in the 1960s were lettered A,E and G, and at Manchester C,F,K,L and P, but they were! The next complication is that at Manchester further die letters are H (Head Office), E (East), S (South), N (North) and W (West), along with SE (South East) and so on: however, at Birmingham E is at the Head Office (ie it is NOT East) but Manchester E means East and is used at the Eastern District Office. Only experience (or chapter 10 of "Collect British Postmarks") can tell the collector which is which, but I have left a space, each time listed, after the Head Office dies and before the District Office dies, eg Glasgow A,B,C, followed by a space before S,SE,SW,W,W3. This applies to Birmingham, Edinburgh, Glasgow, Liverpool and Manchester. At Birmingham the district offices are further complicated: these are ADO (Aston), CH (Camp Hill), ED (Eastern District), H (Hockley), and WDO (Western District Office), but by the 1990s "H" has become a normal machine at the MLO. Erdington and Moseley DO are listed alphabetically, as are Leith DO and Portobello DO of Edinburgh.

Chapter 10 of "Collect British Postmarks" (Sixth Edition) contains a full listing of towns (including District Offices) that used machines from 1933 onwards.

8. DIFFERENT TYPES OF MACHINE

I do not intend to repeat the descriptions of ALFs, FCTs and CFCs already included in the "PPP" books. Suffice it to say that the ALF machines had four streams and FCTs and CFCs have two streams each. Usually the town dies indicate this but sometimes not so. The first ones, namely the S and T ALF machines at Southampton, did not do so, there being four S or T dies though later changed to S1-4 and T1-4. All sorts of variations followed for ALF machines, from Birmingham using the same letter for all four streams of a machine (but six machines lettered N,P,Q,R,S,T), Cardiff A to D, Lancashire 20-23 at Preston; Leeds AA1,AB1,BA1,BA2 and so on. As I write these notes in 1996 things are

currently a little clearer, with at least some town dies inscribed SCM (stamp cancelling machine), FCT and CFC to make life easier.

9. NUMBERS OF SLOGAN DIES

Throughout the listing I have attempted to show the numbers of dies used, and counting the numbers of TOWN DIES can be misleading. On the other hand there is nothing else to go on. For example there were frequently in the 1960s from 10 to 13 town dies used at London (Mount Pleasant) but how many slogan dies does this represent? The answer is usually less than the 10-13 number eg six dies. At smaller offices the number of town dies is more reliable eg Leeds A,B,C usually means three slogan dies. The conclusions are that (a) I have used a certain amount of judgement in assessing the numbers and (b) all numbers are approximate. These are shown (in brackets) if not obvious from the town dies.

10. TOWN DIES NOT USED AT THE TOWN STATED

The most well known example is Wadhurst. Wadhurst had a Krag machine in the 1960s and used no slogans. But on Sundays mail was taken to Tunbridge Wells where a Wadhurst town die was used in the Tunbridge Wells machine. Thus slogans were used, and whenever a slogan was used at Tunbridge Wells it was to be found with a Wadhurst town die for this reason. Other examples from the 1970s are Middlewich used at Northwich, Betws-y-Coed at Llanrwst and Llanidloes at Newtown. Even more complex was Milford Haven using one town die at Milford Haven and another for certain collections at Haverfordwest.

11. TOWN DIE LAYOUTS

At one point I used the Kneil/Parsons classification which used roman numerals to show the layout of the die and whether there were arcs between the inscription at the top and the inscription at the bottom eg l.I meant town/county at top & bottom with no arcs, l.II the same but with arcs. I have simplified things in this volume, however, by ignoring the layout and just saying whether the die has arcs or not, and then only when both exist, otherwise I have not mentioned it at all. Hence the terms "arcs" and "no arcs" in my listings. Others that are obvious are those such as Reading which showed a + sign to either side (later X) to distinguish one die from the others. Why they did not all use letters A to Z I will never know!

12. TOWN DIE LETTERINGS

The lists unashamedly use the "Peachey classification" of town die letterings, particularly where there are no differences between town die inscriptions, it is only the shape and font of the lettering that differs. See section 18 for details.

13. SLOGANS USED IN STANDARD AND TRANSPOSED POSITIONS

Although transposed slogans (with slogan on the LEFT) started in 1963 it took some time before "transposed" uses of national slogans appeared, and even in 1965-67 there were few, with more in 1968-69. I have noted transposed uses in one of two ways, as inspection of the listings will show. Where the majority are standard (slogan on the RIGHT) I have highlighted transposed by underlining. Where a mixture of both, as in the early 1970s, I have shown each as "std" and "trans". If the reference number is suffixed by "t" (for transposed) ALL the towns were transposed.

14. SEQUENCE

By convention I have always listed London first, and under London (a) Mount Pleasant usually comes first followed by the other Central London "1" offices (known as the "District Offices" to the mid 1980s) (b) then the sub-districts if used (including SW11 and W2 which were also District Offices); these are typically only involved for "Christmas" slogans and a few others (c) the alphabetic lists, (d) early and late uses. Other varieties, such as Inverted slogans, are not normally listed though may have been included in a few instances.

15. FIRST DAY SLOGANS

For full details see "Twenty Years of First Day Postmarks" by Brian Pask & Colin Peachey, published 1983.

16. POSTCODE SLOGANS

With these slogans I have taken a different line. Instead of a more complex description, with every town die used and when it was used, I have decided the PPP books show these slogans in sufficient detail. Thus what is needed is a SIMPLIFIED listing, so I have attempted to show the towns/town dies involved, and whether standard and/or transposed (but not the dates of every change), and little else. For more details refer to the main listings of "CSP" and "Seventies", and chapter 4 of "Slogan Postmarks of the Eighties" and "Nineties".

17. SLOGAN DESIGNS WITH SUB-TYPES

There are four designs which involved the production of dies in such numbers and at different times that different manufacturers were probably involved. This in turn resulted in slight differences which are apparent to the keen eyed collector. Details are shown in sections 17.1 to 17.3 that follow (the fourth being "Recorded Delivery" shown only in Volume I) :

17.1 RADIO TV LICENCES

Initially there were four sub-types A to D. Most specimens can be allocated to these four sub-types but there are one or two "rogue dies" that do not fit precisely. From 1965 a type G occurs. Types E and F were earlier distinguished but the differences are so slight I have dispensed with these two sub-types.

Sub-type D

Sub-type G

Differences are difficult to describe, but (a) examine the point at the bottom of the design, which is under the R in type A and under the O in type B (b) examine the two Rs of FOR RADIO which are wide in types A and B, narrower in C and D, medium in G (c) the cross-bar of the A of RADIO which is low in type C, higher in type D and G (d) in type G both the shape of the Rs of FOR RADIO and the two Cs of LICENCE are distinctive.

17.2 VOTERS LISTS (also shown on page 34 of "Collecting Slogan Postmarks")

Type 98

Type 98A

Type 98A
new sub-type

Type 98B

Type 98 has large letters and no lines at the right of the design. Type 98A has smaller lettering, lines at right of design, and the T of LISTS is to the left of the T of THE. Type 98B is similar but different shape to the C of CHECK and the T of LISTS is to the right of the T of THE. The fourth type was introduced in 1964 (a 1965 specimen is shown here) and is listed as "type 98A new sub type" since like type 98A it has lines at right and the T of LISTS is to the left of the T of THE. But, more like type 98B, it has a distinctive shape to the C of CHECK and the R of VOTERS is also distinctive. Type 98C was introduced, largely in the London area, in 1970 when slogans were chiefly transposed hence there are no lines at the right. Distinctive thick lettering makes this type easy to spot. The last type, 98D, also has thick lettering but is smaller with lines at right, and its ONE DIE was introduced in 1978, the last year of general use of this slogan.

Type 98C

ARE YOU ON THE
NEW VOTERS LISTS?
—CHECK NOW

Type 98D

ARE YOU ON
NEW VOTERS LISTS?
—CHECK NOW

17.3 POST EARLY FOR CHRISTMAS ("Candle" design)

The two sub types are shown here but are NOT distinguished in the lists since (a) I am not convinced their difference warrants it and (b) the data I have is not broken down by the two sub types. The lettering in the first sub type is thicker and the F of OF is to the left of the I of CHRISTMAS. In the second sub type the lettering is thinner and the F of OF is over the I of CHRISTMAS.

18. TOWN DIE LETTERINGS - THE PEACHEY CLASSIFICATION

The lettering of modern Universal machine town dies differs as different manufacturers are used. The "Peachey classification" of town dies used post war was first published in the British Postmark Society Quarterly Bulletin some years ago, and in 1991 was abbreviated and updated for publication in Royal Mail's British Postmark Bulletin - described here in totality even though it extends beyond the 1960s. It breaks the letterings into different styles or types. Readers should note the dies are not always easy to recognise, and the

types are difficult to describe, but with some experience dies can be "dated" in that the types conform to respective periods of manufacture. Most offices with two or more machines seem to have town dies in use of more than one type since normally manufactured at different times, the exception being when a generic inscription is introduced then all the dies of one town are produced together, until replacements are later required and the cycle starts all over again!

Type 1 dies are termed "old large lettering" and had been in use from the 1920s; examples still in use in 1995 are Beckenham and Invergordon. Type 1a, old narrow lettering, has similar letters but narrower and not so rounded; rarely seen with arcs between town and county, and used for dies introduced from about 1945 into the early 1950s, and Stourport-on-Severn is a recent example.

Type 2, "old style", was used for many dies introduced between 1947 and 1958. Many such dies, presumably the lesser ones, have remained in use until quite recently - many of the London missort dies provide examples up to 1993 or so, also Emsworth a nice example with arcs and Todmorden without, both used to the early 1990s. Type 3, "narrow lettering", also applies to large numbers of dies since it was used for most of the dies produced between 1958 and 1967 and then from about 1970 to 1976, thus the first generics ("Rhondda" and "Fylde Coast" in 1966) and many of the "new county" dies introduced in 1975 were of this style; some of the small offices in East Sussex and in Wales are still using these dies.

A highly distinctive style of small squarish appearance was used for a short period of manufacture in 1963-64, and type 4 is known as "squat lettering" (as is style 12 in the 1990s). Only 54 dies are known and Glasgow B survives in 1995. Close on its heels was type 5, "narrow lettering new style", with new letters having flat sides and about 450 dies are recorded, introduced chiefly in 1964-65 and a few remained in use into the 1990s. Letters are not consistent, however, as comparing the two Cs in Wick will show.

Type 6 was similar to type 3, but in 1967 a few dies appeared with lettering closer together - only seen from Birmingham, Carlisle, Manchester and Newport Mon. Type 7, "new wider lettering", was more numerous again on new dies introduced from 1968 to 1971; like type 5 in terms of individual letters but letters wider.

Type 8 is very different, "very narrow lettering", used from about 1980, and dies lasted to the 1990s: the "&" is distinctive and is shown here. Type 9 is also distinctive in having a "bump" at top and bottom of the town die, and about 130 such dies were manufactured in about 1984. Very few of type 10 were made. Here the letters are further from the rim and close together, and most were

short-lived - possibly a new material was used. Type 11 lasted for some years and most new dies in the period 1985-93 were of this style - narrow lettering and not unlike type 5. Type 12 is a clear squat type lettering and was first used in late 1993, and new dies up to 1996 are of this style.

19. USE OF THE DATA IN THIS BOOK

Postal historians, researchers and compilers of other works are encouraged to use the data from this book as they work on their own topics. However, they are asked to acknowledge the source.

20. SYMBOLS USED

E = earliest ("by" sometimes used with similar meaning)

L = latest

(U) = unannounced

(number in brackets) usually means number of SLOGAN dies used, often my judgement!

MAIN LISTINGS

1424t Commonwealth Games Edinburgh (first use) 2-31 Jan 1970

Announced as starting 1 Jan but this was a bank holiday in Scotland.

Edinburgh C,D,

ED, NW, S (Edinburgh S/- and -S-), SW,W, Dalkeith, Leith DO,
Glasgow B,C,F, H1-4, J1-4 (11 dies)
S, SEDO, SW,W. 24 dies used

Late use : 1 Feb Edinburgh C

1427/t Remploy Silver Jubilee 5 Jan 1970 to 4 Jan 1971

Used for various periods within the above dates, see below.

London NW1 B std (5 Jan 1970 only seen),

then transferred to - NW10 and NW10A E 13 Jan to L 27 Aug 1970 std, then

Alexandria, Barrhead, Clydebank,
 Dumbarton, Greenock, Kirkintilloch,
 Motherwell & Wishaw A, Port Glasgow. 8 dies used

1725/t Decimal currency take a leaflet from Jan 1971, see below

Originally planned as 1166 dies and to be used 1-28 Feb, but the postal strike,
 which lasted from 20 Jan to 7 March, meant most were not used at all - but the
 slogan was used in three periods :

a) before the strike, earliest uses as follows :

12 Jan Dorchester trans, Frome trans, Littlehampton trans,
 13 Jan Pulborough trans
 15 Jan Storrington trans
 18 Jan New Romney std
 19 Jan Arundel trans.

These prob all ended 19 Jan, even though New Romney seen again in Feb, see below

b) during the strike, as below, some of which remained in use after the strike :

Aldershot trans,	Chichester trans,	Haslemere trans,
Hindhead std,	Hythe std,	Lewes std,
Liphook trans,	Newhaven trans,	New Romney std,
Petersfield trans,	Petworth trans,	Ramsgate trans,
Uckfield std.		

Of the above Hythe is believed to be the only one in use on 1 Feb, original first day of the slogan.

c) after the strike, generally from 8 March

2561/t-63/t Voters Lists 28 Nov to 12 Dec 1974

A new sub type was used in 1964-73 and again in 1974, shown here at the end of 2562/t - type 98A. There were no uses of type 98B in 1974, but the new type 98C, first used in 1970, was used again in 1974, see Introduction section 17.2. An unusual variation on type 98A was the die with missing "New" used at Medway.

3121/t-25/t Voters Lists 28 Nov to 12 Dec 1978

A new sub type was used in 1964-77 and again in 1978, shown here at the end of 3122/t - type 98A. For this, the last year of regular Voters Lists campaigns, a new sub-type, type 98D, was introduced, though only one die of it was used!

3121/t Type 98

London N1 B1,B3 std, SW1 B std (see also 98C), W1 M1-3 std,

3131/t A Happy Christmas The Post Office 8-19 Dec 1978

Most offices considered the start date as 8 Dec, but a number 7 Dec hence early uses 7 Dec are ignored. A new sub type was introduced in 1978, probably as a new batch of dies was made. The height is slightly reduced but uses of these dies are not noted separately in this listing or in latter years.

Mountain Ash,		
Newbridge,	Newtown,	Pembroke Dock,
Penmaenmawr,	Pontypool,	Pontypridd,
Rhondda 2 (Porth),	Rhondda 3 (Tonypany),	Rhondda 5 (Treorchy),
Tredegar,	Tywyn,	Usk (U),
Welshpool,	West Glamorgan 5,6,7,8,	Wrexham (two).

About 73 dies used.

Late use : 22 Dec Gwent 6

3259 Collect British Stamps 31 Dec 1979 to March 1995

Approx 10 dies issued to each of 10 regions. Some were short-lived but others lasted until worn, broken or dies lost, and uses were not all continuous. No general end date was announced, but at specific offices end dates were announced, and end date shown above is the date of the last die in use at Norwich. Years shown in brackets denote last year of use where known; most others were short-lived.

London Postal Region

London H,
 then changed to London IS MLO B,F,H,J,L from 22 Jan 1980,
 N1 B,B2, SE1 A,F,X (1987), W1 L2-4,M2,M3 (1985),
 E 7, W 2 B,

Epsom (see note below), Harrow E(Wembley), Romford MLO, and Romford/-,
 Uxbridge (see note below).

Notes : 1. At Epsom slogan replaced by "Crowns" slogans from 18 Jan 1980; after this series of slogans had ended (in May 1981) enquiries were made and the slogan was used again briefly, seen 22 March 1983
 2. Uxbridge not used initially, but used briefly 8-11 March 1983 when enquiries made

Eastern

Aylesbury (1983), Bedford (to 29 March 1980),
 Bury St Edmunds, Cambridge B, D3, Harlow,
 Hemel Hempstead wide/narrow H (announced as 1st but 2nd for part of 1982)(1984)

Llandrindod Wells,

Bridgend,
Haverfordwest,
Llanelli,

Chester A,
Hereford A,
Shrewsbury A.

Early uses : 22 Dec 1979 Newry
29 Dec 1979 Southampton D

POSTCODE SLOGANS

This chapter is designed as a simplified listing of the "mainstream" postcode slogans. Neither the Newport Mon rhyming slogans nor the MLO slogans of the 1977-79 period are included, or "Postcode Exhibition" (but see no.1774t in main listing) or others that happened to mention the postcode topic. To find your way around this listing, use of the Index on page 246 of "Slogan Postmarks of the Seventies" is recommended.

To keep it simple I do not claim to include details of all town die changes, and detailed dates, just overall dates, towns used, and standard/transposed details. Unlike the rest of this volume, where listings are in MORE detail than the slogan catalogues, in this instance reference should be made to them for more details of dates and changes. "Standard/transposed" changes are mentioned only once even if there were several such changes. The convention is for the major town to come first, followed by the others in alpha order. * denotes towns whose town dies changed at the time of "county change" and with the postcode slogan still in use (and excluding those that only started after the change).

1392/t type 941 BOURNEMOUTH area - see Volume 1

add Bournemouth-Poole CFC1 (1992)

1404/t type 941 PLYMOUTH area - see Volume 1

add to St Austell "and Gt Britain"

1432/t type 941 CARLISLE area 12 Jan 1970 to date

*Carlisle A,B std later trans, later C (Cumbria)(1991) std,

Aberdeen Mastrick DO std, Dec 1994 only,	Banchory std, Dec 1994 only,
Banff trans,	Peterhead trans later std.

2607/t type 941 ROMFORD area 27 March 1975 to date

Romford -Essex-, A1-4, B1-4 trans later std, later Romford/-, -MLO-, A2 no Essex, R21 std, B4 no Essex trans (1992),

Romford A (Dagenham) trans later std,
Romford R51 (Hornchurch) std (from 1989),
Grays trans later std,
South Ockendon (from Dec 1975) trans later std, later Romford R71,
Upminster trans.

2783/t type 941 LIVERPOOL 1 April 1976 to date

Liverpool A, B, C, F1-4, G1-4, H1-4, J1-4, T1-4, later old worn Liverpool/- - die, all std but reported J1 trans 5 July 1976 only then std again, later 2.3 (1995).

2874 type 941 BLACKPOOL area 1 Sep 1976 to date

Fylde Blackpool Wyre (at Blackpool) 1, 2, 3, 4, 5, 6, later 9 (1987), 7 (1992),

Fylde Blackpool Wyre (at Lytham) 8 (from 1988).

3147/t type 2083 Get the most from your post 5 Feb 1979 to date

(a) Derby A, B, D std from 5 Feb 1979, prob to June 1979 initially, then used again std (incl C, E, F, J) from May 1989, continued through 1990 red period and reverted to black from 17 Sep 1990 and used std to date (various town dies including CFC2 in 1992), then A, C trans April 1995, then F, H std, also Royal Mail Midlands SUNDAY die std from 24 Oct 1993, later trans (May 1995 only),

(b) 19 Feb to 3 Nov 1979 at the following but continued at Coventry - all std but std and trans at Coventry :

Coventry B, C, D, E, F, 1A, 1B std (7), also 2A, 2B E Jan 1980, then changed to Coventry and Warwickshire A, E, F, H, 1A, 1B, 2A, 2B E Nov 1980, later 2B die has '&' instead of 'and' (1986), continued through 1990 period but started early (E 2 Jan instead of 5 Jan), then back to black 17 Sep 1990 but used in red in error on 17 Sep collectors' envelopes, then C4 transposed, seen 31 Oct to 16 Nov 1995 (use at Coventry may have ended at this point?), also used with Stratford upon Avon A, B, 1A (used at Coventry) from 1993, also used (one of Coventry dies perhaps?) at Warwick (missorts/locals only) from early 1991 to date,

Moreton-in-Marsh reported 19 Feb 1979 only, Nuneaton A, B (2),
Rugby A (2), Shipston-on-Stour, Stratford-upon-Avon 1, 2 (2),
Warwick & Leamington Spa 1, 2 (2) (this usage is at Leamington Spa, but see reference to Warwick above listed under Coventry).

3206 Don't just post it - code it! 9 July to 3 Nov 1979

Manchester K. 1 die used

3244/t Be properly addressed postcode it 5 Nov 1979 to date

NOTE : THIS LIST IS NOT NECESSARILY COMPLETE CERTAINLY BEYOND THE FIRST COUPLE OF YEARS. THUS FOR EXAMPLE LATER CHANGES TO GENERIC INSCRIPTIONS LISTED IN INTRODUCTION SECTION 5 ARE NOT SHOWN.

Start dates differed region by region, but 5 Nov 1979 unless otherwise stated. The slogan largely replaced type 941, and in turn replaced by "Pass on your postcode" in 1985, though it remained in use at many smaller offices. The slogan continued through the 1990 red period (listed as no. 3244R/t) and beyond. Note that numbers of dies are shown differently for each region: for NE totals for each Head Office in brackets as notified, and for the minor offices the relevant Head Office is shown, for Midlands as shown (1 unless stated), and SE for Head Offices only as notified, others estimated.

For further information regarding later transposed uses, and for details of design variations, see "Slogan Postmarks of the Nineties : part 1" page 26.

Eastern About 95 dies; announced for use at Harwich, Norwich, Oxford from Aug 1980 but used at these offices from Nov 1979 (Jan 1980 at Harwich)!
