

Nightrider

this is what it takes
to deliver your
urgent parcels

Do your parcel delivery needs go up and down – and all over Town? So erratically that your carriers' vans or your own need to be in half a dozen places at once one minute . . . and standing idle the next?

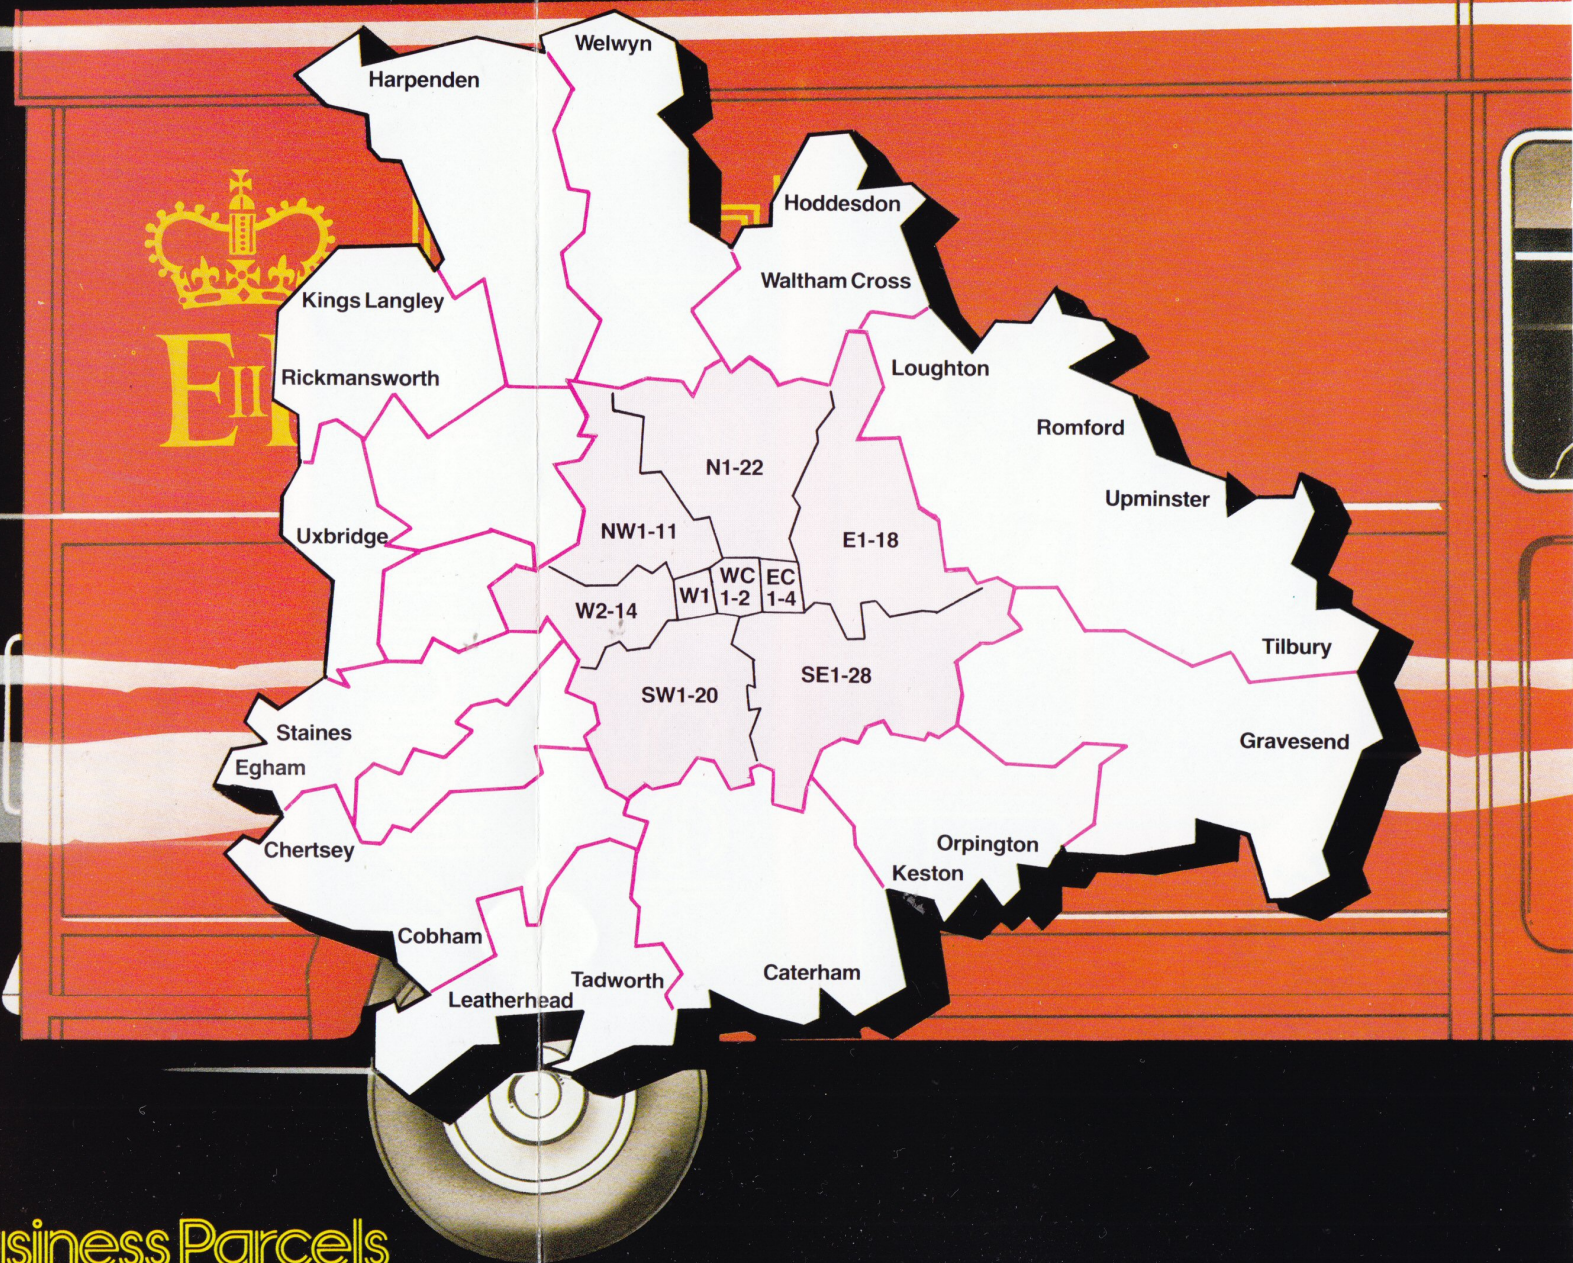

The Royal Mail Nightrider service has just what it takes, with a choice between contractual terms with prompt collection whenever you need us, or over the counter at main post offices. Both choices give delivery anywhere in London, the next working day. No problems about vehicle non-availability, or the costs and administration headaches in organising your own transport.

And certainly no problems over parcel size or weight. Nightrider parcels can weigh up to 22½ kgs., as long as they do not exceed 1.05m. in length and 2m. in length and girth combined.

With a contract, there's no need to stamp, frank or weigh your parcels. We will bill you with the kind of regularity and flat-rate economy that won't give your accountant sleepless nights.

And when you post your Nightrider parcels over the counter, you pay with stamps or by franking meter. When your parcels carry a Nightrider label, we carry them with priority treatment, fast. For a talk with the Nightrider representative, get in touch with us *now*.
